Re: Conference Call Today on Neonic

Mark: - can provide the details for the conference (link)room #. Just to clarify the meeting was set-up in response to some registrants indicating they had questions regarding one aspect to the July 22 letter. The scope of the meeting is to answer any clarifying questions regarding EPA's request for efficacy data related to translocation of the active ingredient and major metabolites in plant tissues, structures and fluids. We will not be discussing any other aspects of the July 22 letter.

Conference Call Today on Neonic

Steve: As a major distributor of seeds and crop protection products, CPS would like to be included in today's call so we can be prepared to educate our customers/applicators on upcoming label changes on the Neonic products.
